

What is React?

REACT is a fast-reacting, powerful detergent suitable for a diverse range of degreasing and heavy-duty cleaning tasks. It is especially effective on particulate soils like smoke and road dirt.

Key Benefits

- ✓ Attacks all dirt oil and carbon films and washes them away easily
- ✓ Thousands of uses in workshops, factories, garages – in fact, anywhere you find dirt, oil and grease
- ✓ Great for fire-restoration cleaning work
- ✓ Non-rusting and also safe on aluminium

How Does It Work?

REACT is an alkaline water-based solvent cleaner suitable for use on all washable surfaces.

This concentrated detergent:

- Rapidly loosens dirt and soot allowing it to be washed away
- Is very versatile and excels in a variety of cleaning tasks
- Is not classed as dangerous goods

For Use On...

REACT removes the toughest dirt, mud, oil films, grease, grime and soot from floors, equipment, machinery, painted walls and vehicle bodies. It is excellent for cleaning kitchen floors.

It is suitable for cleaning walls, ceilings, floors, sinks, cupboards, baths, showers, car and truck engine bays, aluminium, stainless steel, glass and porcelain. REACT is great for cleaning painted surfaces in preparation for re-painting.

REACT may be used in mop buckets, auto scrubbers, pressure washers and steam cleaners, as well as by spray-and-wipe.

Technical Data

Properties

COLOUR – Transparent Orange Liquid

ODOUR – Slight Solvent Odour

pH = 11.0 – 11.5

FOAM – Medium Foam or Low Stability

Environmental Care

REACT conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. REACT is non-flammable and biodegradable. REACT containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
REACT	Orange	7	Heavy Duty Detergents

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

LIGHT SOILAGE:

Dilute 1 in 60 with water.

HEAVY SOILAGE:

Dilute 1 in 6 with water. This is ideal for cleaning ovens, BBQ's, walls, dirty paintwork, machinery, greasy floors and smoke damage.

SCRUBBING FLOORS:

Dilute 1 in 50 with water.

VEHICLES:

- Dilute 1 in 10 with water to spray wheels. Allow to soak for 1 to 5 minutes then rinse.
- Dilute 1 in 20 with water to clean engines.

Always rinse the REACT solution off paintwork and metal surfaces before it dries out.

Apply the REACT solution using a spray, mop or sponge, and scrub lightly, then rinse off or wipe clean using mop or a clean cloth.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Disposal Information

1. Used solutions

Used Solutions of REACT should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. REACT containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 20L

Dispensing Accessories:

500ml Spray Bottle – Code D07A

Trigger 500ml Bottle Plain Blue/White – Code DTR

Hand Pump for 5L Bottle (30ml/Stroke) – Code DHP30

Hand Pump for 20L Drum (30ml/stroke) – Code DHP20

Tap in Cap 5L – Code DTC5

20L Drum Tap – Code DTAP
