RAPIDCLEAN

RC1 GEN3 BATTERY OPERATED FLOOR SCRUBBER

PRODUCT DESCRIPTION

- The RapidClean RC1 is a compact, high-maneuverability battery-powered scrubber designed for commercial cleaning in tight spaces
- It features a 360° swivel point to ease turning and a smart interface for independent control of water, vacuum, and speed

KEY FEATURES & BENEFITS

- 360° swivel chassis – For excellent maneuverability in confined or crowded areas
- Smart touch dashboard – Displays power, battery state, and allows adjustment of water, vacuum, and speed settings
- Heavy-duty bypass vacuum motor – Ensures effective water pickup and drying performance
- Quick-release squeegees (front & rear) – For fast removal and maintenance access
- Squeegee lift for double scrubbing mode – Enables more aggressive cleaning when needed
- Float vacuum cut-off – Prevents overflow in the recovery tank
- Fold-up / compact transport design – Easier to move and store between jobs

RAPIDCLEAN

IPC CT40PA SCRUBBER-DRYER

PRODUCT DESCRIPTION

- The CT40PA B50 is a battery-operated scrubber-dryer designed for professional cleaning in mid-size commercial spaces
- It offers a 500 mm cleaning path, 40 L solution tank and 50 L recovery capacity, combining efficiency with compact design
- With EcoMode, antibacterial plastic in the recovery tank, self-leveling brush deck, and simple, ergonomic controls, the CT40PA B50 is engineered for reliable daily use in offices, schools, hospitals and retail settings

KEY FEATURES & BENEFITS

- Battery-powered (no need for trailing plug) – ideal for unconstrained floor zones
- EcoMode for reduced water/chemical usage in lighter cleaning tasks
- Self-leveling brush deck ensures consistent pressure over uneven surfaces
- Antibacterial plastic recovery tank – help reduce odor and microbial growth
- Tool-free access to tanks, squeegee, and filters for quick maintenance
- Adjustable handle and intuitive controls for operator comfort and ease
- Compact footprint for maneuverability in corridors and between furniture

RAPIDCLEAN

CT15 B35 FLOOR SCRUBBER-DRYER

PRODUCT DESCRIPTION

- The CT15 B35 is a compact walk-behind scrubber-dryer built for commercial cleaning in tight or furniture-filled spaces
- Its slim design and effective scrub/dry capability make it ideal for restrooms, small offices, corridors, and schools
- Despite its small size, it carries a large tank and offers high productivity relative to footprint

KEY FEATURES & BENEFITS

- Compact size for easy operation in confined or narrow spaces
- Large tank capacity relative to machine footprint
- Good maneuverability – external turning radius ~ 90 cm
- Adjustable handle height (50–1200 mm) to suit operator comfort
- Three-stage vacuum motors for strong drying pickup
- Antibacterial plastics on handle and recovery tank for hygiene support

RAPIDCLEAN

VACUUM CLEANER MKII BACKPACK

PRODUCT DESCRIPTION

- The RapidClean Vacuum Cleaner MKII Backpack is a high-performance commercial backpack vacuum cleaner designed for intensive use in Australia's cleaning environments
- Equipped with a 1,450 W max motor and robust five-level filtration including H14 HEPA, it offers exceptional suction, low noise, and lightweight portability (only 4.7 kg)
- Modern backpack form with padded three-strap harness ensures operator comfort during long shifts in offices, hotels, schools or commercial facilities

KEY FEATURES & BENEFITS

- Powerful Motor. 1,450 W max output ensures high cleaning efficiency
- Ultra-lightweight Build. Weighs just 4.7 kg for less operator fatigue and easier mobility
- Quiet Operation. Operating at approximately 60 dBA, ideal for noise-sensitive areas
- Premium Filtration. Five-level filtration including H14 HEPA for cleaner air discharge
- Ergonomic Harness System. Padded three-strap support and strong harness for comfort and control
- Switchable Lid & Accessories. Left/right hose fitting, carry handle, and tool set for multiple surfaces
- Eco-conscious Packaging. Made with 30 % recycled materials; packaging 100 % recyclable

RAPIDCLEAN

VACUUM CONTRACT PRO BACKPACK

PRODUCT DESCRIPTION

- The RapidClean Contract Pro Backpack Vacuum is a professional-grade, corded backpack vacuum designed to deliver high productivity in medium-scale commercial cleaning environments
- Powered by a 1300 W flow-through motor, it delivers robust suction while maintaining a lightweight build for operator comfort
- Includes a 5-litre dust bag capacity, 4-stage hi-flow filtration and an 18 m power cord – instruments built for long shifts, large spans and multiple zones

KEY FEATURES & BENEFITS

- 1300 W Flow-Through Motor. Provides strong suction and high cleaning efficiency for demanding areas
- Lightweight Design. At approximately 4.8 kg, it allows operators to work comfortably over extended periods
- Generous 5 L Dust Bag. Allows fewer interruptions by reducing bag-changes during cleaning operations
- 18 Metre Power Cord. Minimises the need for frequent outlet changes and improves coverage range
- 4-Stage Filtration System. Hi-flow filter, exhaust filter plus sealed disposable bag for improved indoor air quality and motor protection
- Ergonomic Harness & Padded Waistband. Optimised for backpack use—reduces fatigue and improves operator posture

DRYFT

SCRUBBER INSTANT GRAB & GO

PRODUCT DESCRIPTION

- The Dryft is a compact grab-and-go orbital scrubber dryer designed for hard floors and tight areas
- It combines scrubbing, drying and vacuuming functions in one lightweight, easy-to-handle machine
- RapidClean lists this model under SKU 58002003, making it ideal for everyday cleaning tasks in confined spaces
- With its low-profile head, magnetic pad system and S-motion cleaning technique, it cleans effectively under furniture and around fixtures where larger scrubbers cannot reach

KEY FEATURES & BENEFITS

- Orbital scrubbing action – 4200 vibrations per minute for aggressive cleaning with minimal side force
- Magnetic pad system – Enables fast and easy pad changes without tools
- Quick-release squeegee – Tool-free removal for convenient cleaning and maintenance
- Ultra-low profile head – Reaches under low furniture and fixtures with ease
- S-motion cleaning pattern – Maximizes floor coverage with efficient side-to-side movement
- Water-efficient design – Uses up to one-third less water compared to traditional scrubbers
- Three-button control system – Simple operation with selectable floor and suction modes
- Quiet, cordless performance – Ideal for daytime or noise-sensitive environments

MOTORSCRUBBER

FLOOR SCRUBBER JET3 STARTER KIT

PRODUCT DESCRIPTION

- The Cleanstar Motorscrubber JET3 Floor Scrubber is a compact, battery-powered cleaning system featuring on-demand spray technology for precise scrubbing and rinsing
- Its lightweight design and ergonomic telescopic handle allow easy cleaning in tight spaces, along edges, and under fixtures
- With a powerful brush motor and backpack battery system, it provides professional cleaning performance with maximum mobility and comfort

KEY FEATURES & BENEFITS

- On-Demand Spray System – applies cleaning solution only when needed, reducing chemical and water use
- High-Torque Motor (360 rpm) – delivers powerful scrubbing for deep cleaning on hard surfaces and grout lines
- Telescopic Handle – adjustable for comfortable use at any height and in confined spaces
- Low-Profile, Pivoting Head – reaches under benches, shelves, and around corners with ease
- Backpack Battery Design – lightweight power pack provides long runtime and easy movement
- Waterproof Construction – suitable for use in wet areas such as washrooms, showers, and kitchens
- Quick-Change Brushes & Pads – easily switch between scrubbing, polishing, and buffing accessories

I-SCRUB SCRUBBER ORBITAL 30 PRO 240V

PRODUCT DESCRIPTION

- The I-Scrub Orbital 30 Pro is a high-performance orbital single-disc scrubber engineered for deep cleaning on hard floors and carpets
- Its orbital motion delivers a powerful 1650 RPM equivalent scrubbing action with minimal side swing, making it easy to control and safe for operators
- Built for versatility, it's available in corded and battery versions to suit different cleaning environments

KEY FEATURES & BENEFITS

- Orbital technology – Provides 1650 RPM equivalent agitation for effective deep cleaning with no side torque
- Detachable solution tank – Easily refill and clean the tank without tools for continuous operation
- Heavy-duty die-cast aluminum housing – Adds extra scrubbing pressure and ensures long service life
- Sealed cover design – Protects internal components against moisture and chemical splashes
- Soft-grip handles – Ergonomic control reduces fatigue and improves user comfort
- Foldable transport wheels – Move the machine effortlessly between locations or store compactly
- Battery compatibility – The Pro B version supports i-Power 9 or i-Power 14 lithium-ion batteries for cordless flexibility
- Low noise operation – Safe for use in hospitals, schools, and noise-sensitive environments

I-SCRUB 21 SCRUBBER KIT W/BATTERY

PRODUCT DESCRIPTION

- The i-Scrub 21B Scrubber is a compact, cordless scrubber designed to reach tight or vertical surfaces that conventional floor machines struggle with
- Its adjustable 360° head and dual disc action deliver high cleaning performance in narrow corridors, shower walls, stair risers and around fixtures

KEY FEATURES & BENEFITS

- Dual disc / counter-rotation action – Enhanced scrubbing force and stability when applying downward pressure
- 360° swivel head – Clean horizontal, vertical or angled surfaces with ease
- Telescopic adjustable wand – Adjustable height for ergonomic operation and easier reach
- Convert to handheld – Can transform into a handheld unit for polishing or tight-access cleaning
- Manual solution dosing – Operator can control detergent / water dose as needed
- Lightweight & portable – Easy to maneuver and carry between jobs
- Wide compatibility of surfaces – Suitable for floors, walls, coving, showers, stairs, grout lines

PRODUCT DESCRIPTION

- The Kärcher 1.100-137.0 Puzzi 10/1 is a compact spray extraction cleaner built for upholstery, carpets, vehicle interiors, and small areas
- It combines spraying, agitation, and extraction in one portable unit, ideal for spot cleaning and professional detailing work
- With onboard accessory storage and ergonomics designed for frequent use, it's a reliable choice for cleaners and mobile detailers

KEY FEATURES & BENEFITS

- 1250 W Motor – delivers strong suction and spray thrust for effective extraction
- Integrated On-Board Storage – keeps hoses, tools, and accessories handy and organised
- Compact & Mobile Design – easy to transport and manoeuvre even in tight spaces
- Transparent Dome Lid – offers clear visibility into the recovery tank to monitor fluid levels
- Quick Disconnect Fittings – facilitates fast hose changes and maintenance
- Swivel Casters & Handle – smooth manoeuvrability across floors and thresholds
- Crush-Resistant Hose – durable for demanding jobsite use

Our Security Camera Cleaning Kit range is a complete maintenance set designed for safe, efficient cleaning of dome and fixed surveillance cameras

- The elasticised microfibre sleeve fits securely over camera domes and housings for streak-free, lint-free cleaning
- The brush gently removes cobwebs, dust, and debris from lenses and camera housings without scratching
- Ideal for maintaining image clarity in security systems installed in commercial, retail, and industrial environments
- Designed for professional contractors and facility teams needing a safe, ground-based method for servicing elevated cameras
- Compatible with most standard quick-connect extension pole fittings used in commercial cleaning and maintenance

KEY BENEFITS

- Allows maintenance of cameras from the ground, reducing the need for ladders or scaffolding
- Improves video clarity by removing dust, streaks, and surface contaminants
- Premium microfibre tools provide gentle yet effective cleaning for sensitive surfaces
- Kit standardises and simplifies routine maintenance across multiple sites, reducing downtime and service disruptions
- All components are reusable and designed to withstand demanding commercial environments
